Transcendent Existence-Conscious-Bliss

- Origin, continent and ultimate reality of all that expresses in cosmos
- It is the Nature of Divine Being
- Sachchidananda becomes Universe

Consciousness-Force

- Consciousness has two power
- It knows and wills
- Self-consciousness knows all that is within it
- Self-energy governs the universe

Unity & Multiplicity

- Oneness is the foundation and reality of the multiple worlds
- Creation is a movement between Unity and Multiplicity
- The original unity expresses as idea, force and form
- Involution is toward multiplicity, evolution back toward unity
- Cosmos is infinitely variable oneness

Supermind or Real-Idea

- Nature or creative power of Sachchidananda
- Knowledge and Will are one
- It creates ordered relation between the unity & multiplicity
- Divine Gnosis creates, governs and upholds the worlds

Double Power of Supermind

- It comprehends all things in itself as the One
- It apprehends separately all things in itself as objects of its will and knowledge
- It develops movement, form, law of things in harmony with the Truth for manifestation
- It creates an appearance of unseparating division
- It upholds both Knowledge and Ignorance

Supermind is the Fourth

- Sachchidananda alone cannot become an ordered universe
- Supermind creates ordered relations
- Supermind creates through self-limitation
- All development is self-development
- Supermind is the fourth (Turiyam) in descent and ascent

Mind, Life and Matter

- They are subordinate powers
- They are subjected to the Ignorance by forgetting the Oneness
- They are essential for Cosmic Being
- Cosmos requires separate centers of Consciousness

Mind

- Mind is faculty of Supermind to measure and limit Infinity
- Mind views cosmos from individual centers
- Mind is necessary for fixed order and interaction of relations
- Mind takes its standpoint in division

Life

- Life is a play of conscious energy working in Mind's division
- Life is a play of persistent soul-forms of the Eternal
- Life is the energy of interaction between many fixed centers of consciousness
- Ancient thinkers called it Vayu or Prana

Matter

- Substance is essential for manifestation as cosmos
- Substance is being looking at itself as object
- Matter is form of substance in division
- Matter is how mind acting through the senses experiences Sachchidananda

Psychic

- Meeting point of mind, life and body
- Double appearance
 - Surface desire soul
 - Inner psychic entity
- Psychic is projection of the infinite Bliss in evolution

Bliss is the nature of Infinite Consciousness

- Cosmos is a play of divine self-delight
- In the Ignorance, delight is held back in the subliminal and superconscient
- We recover it by universality and transcendence

Eight-fold Chord of Being

Upper Hemisphere	Lower Hemisphere
Existence	Matter
Conscious-Force	Life
Bliss	Psychic
Supermind	Mind

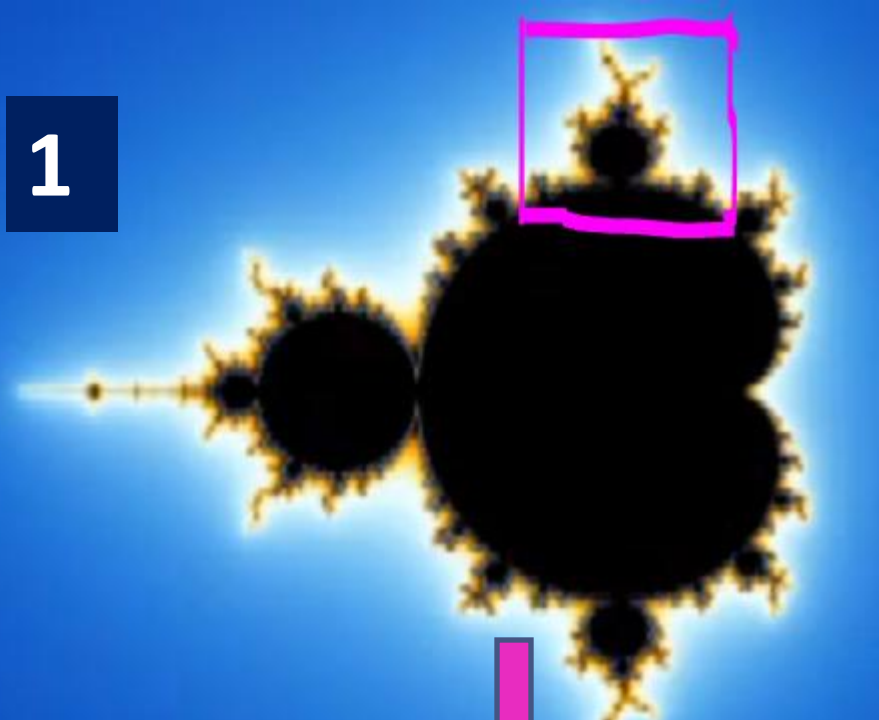

All 8 principles essential for creation

- Cosmos is play of infinite Consciousness and Force of Existence
- This play produces and regulates all these forms and movements
- All eight principles are present in the world & ourselves
- Evolution of the involved is inevitable
- The higher our aspiration, the greater the Truth that seeks to descend upon us

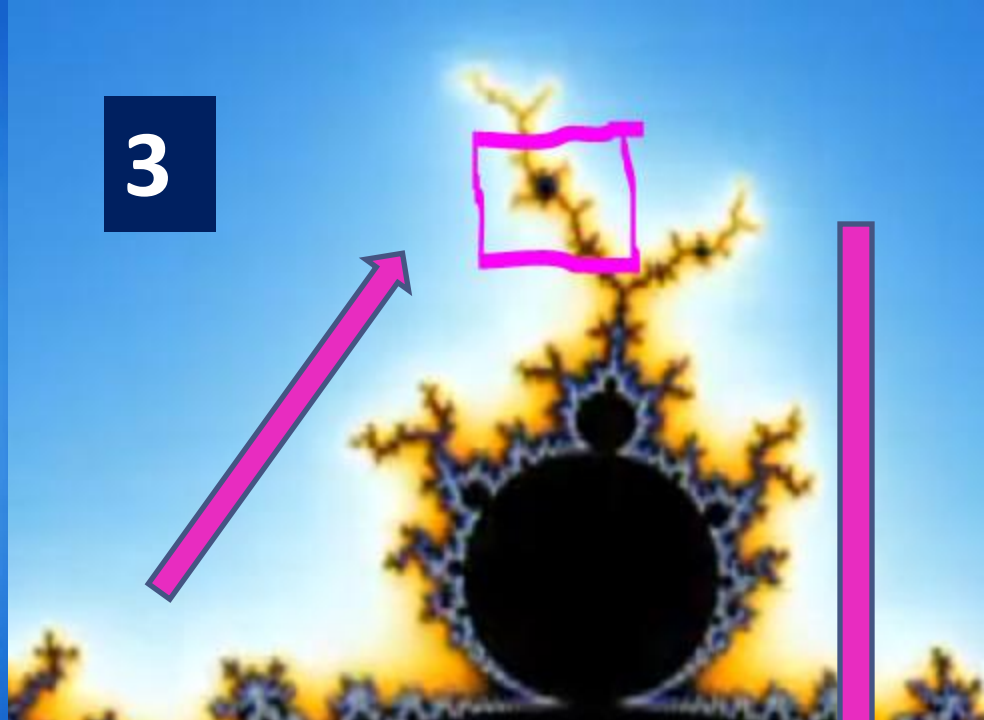

Infinite & Infinitesimal

- The world created by involution is the Infinite disguised as the finite
- Sachchidananda is present in every detail, act, moment, situation
- In each small thing, the whole Truth is acting

Divine Life

- A knot separates the higher and lower hemispheres
- Rending the veil makes Divine Life possible
- Mind recovers its divine light in Supermind
- Psychi realizes its divine self in Ananda
- Life repossesses its divine power in play of omnipotent Conscious-Force
- Matter opens to its divine liberty as form of Divine Existence
- This is the goal of evolution
