

THE DIVINE SOUL

The Life Divine

Chapter XVII

Webex talk on June 24, 2012

ABSOLUTE

UNITY

SUPERMIND

MULTIPLICITY

Divine Soul lives self-contained in the play of Sachchidananda

- Aware of itself as pure and infinite self-existence
- Aware of itself as pure, unlimited consciousness in its energy
- Aware of itself as inalienable delight in its eternal self-experience

DIVINE SOUL LIVES
CONSTANTLY IN THE
PRESENCE OF THE
ABSOLUTE

Divine Soul lives simultaneously in the One and the Many

- One and Many are the two terms of Sachchidananda
- One and Many are inseparable poles of the self-unfolding Absolute

Divine Soul is aware of all its self-expressions as forms of Sachchidananda

- All that forms in Sachchidananda are manifested potentialities of the One
- All variations of Being, Consciousness, Will and Delight are self-expressions of the unity and infinite oneness
- Divine Soul is conscious of Sachchidananda in its Being and also in its Becoming

Divine Soul is aware of the
three grades of Supermind
as a triune self-manifestation
of Sachchidananda

Comprehending Supermind

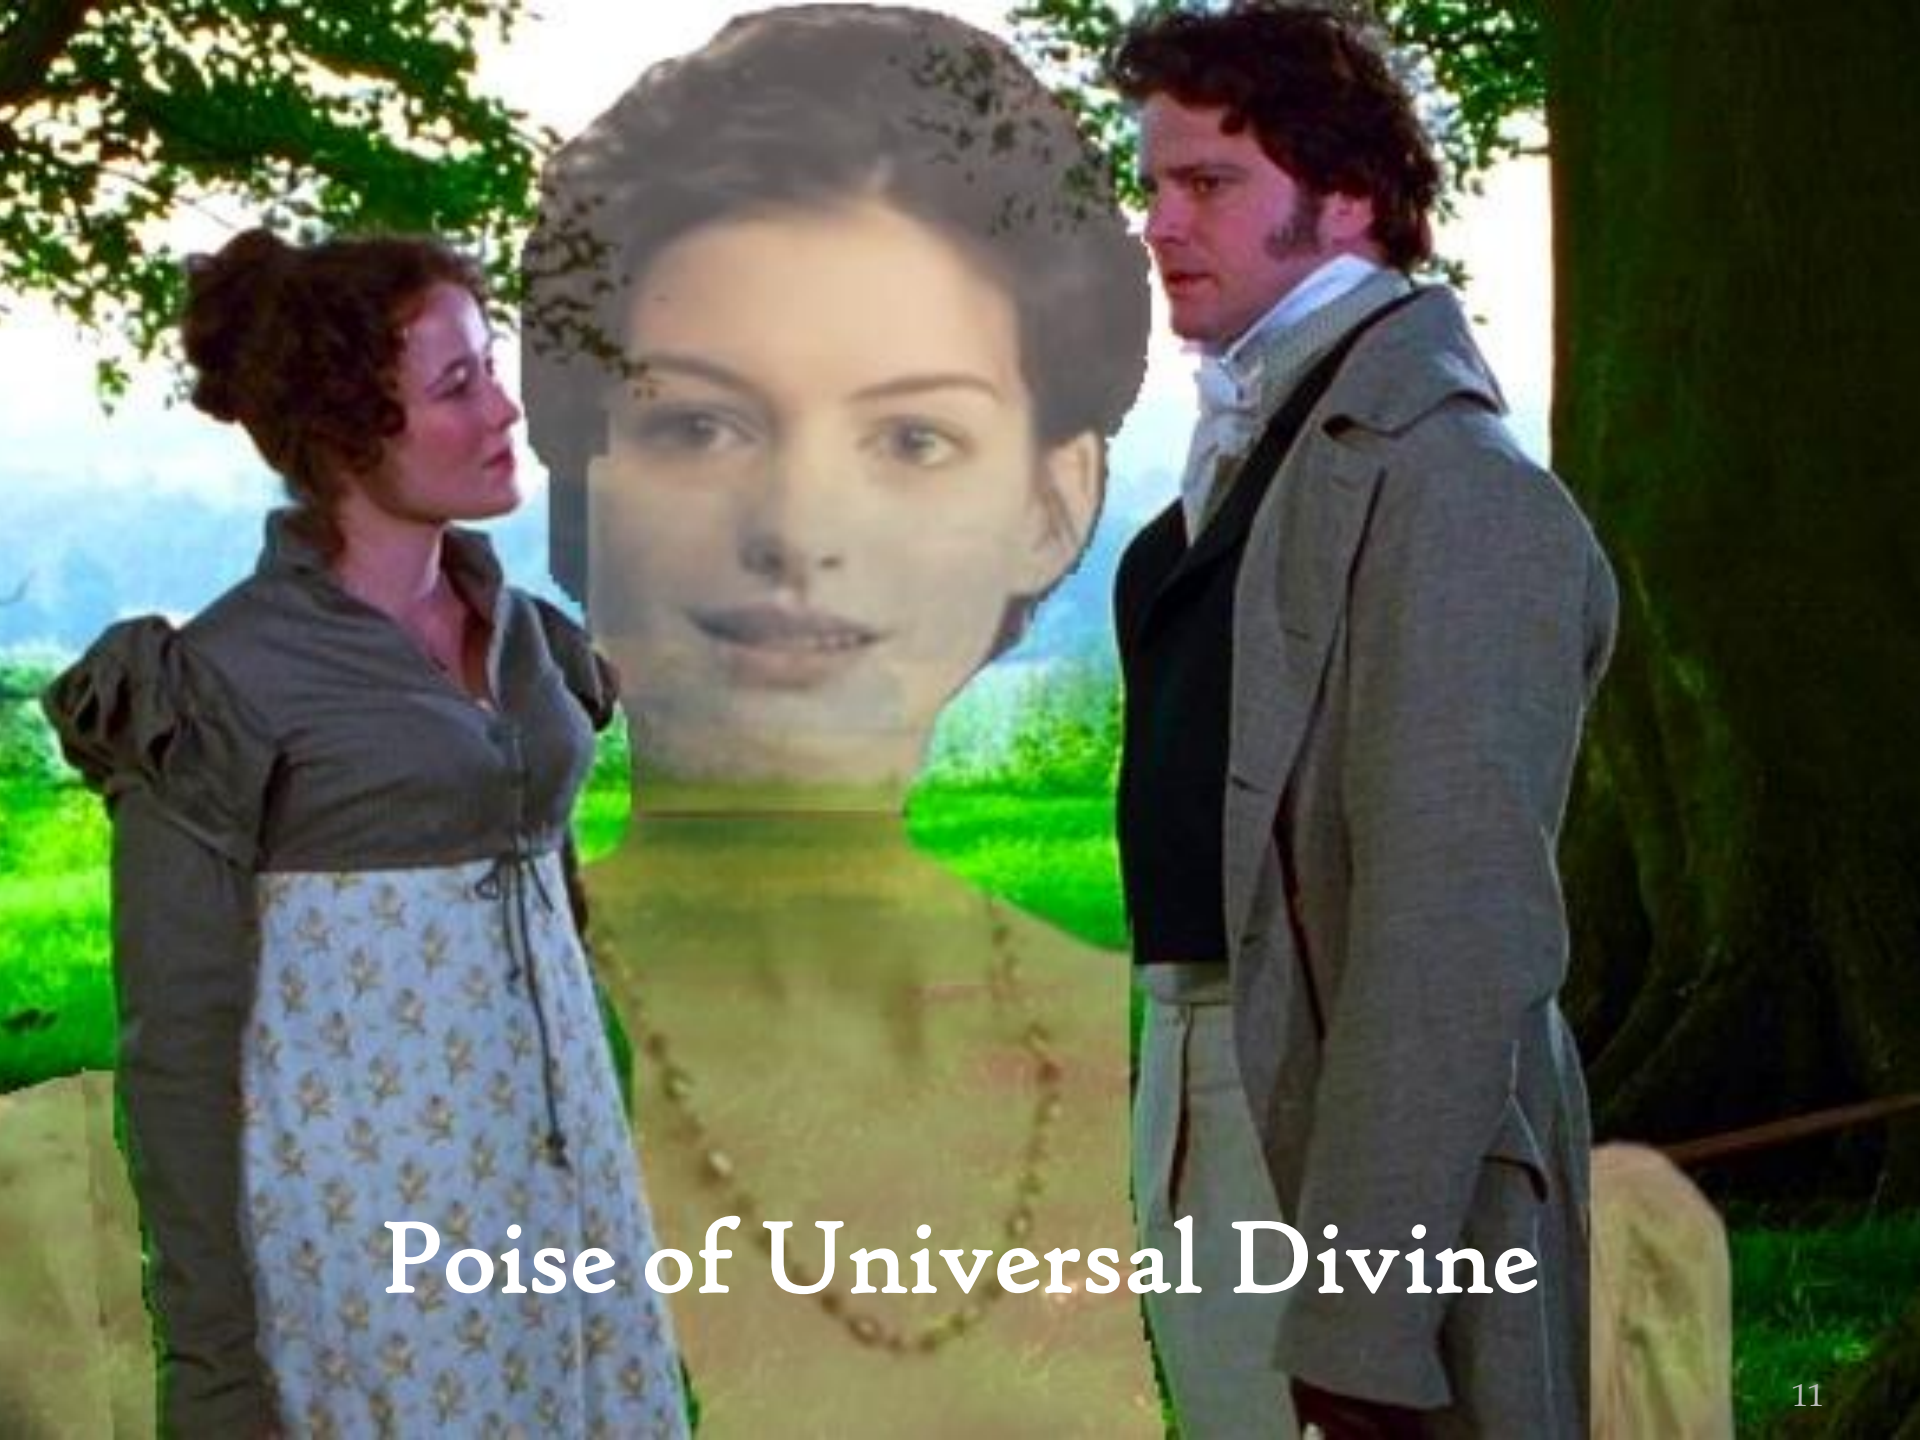

- ▣ Equal self-extension of Sachchidananda
- ▣ All things are the Self
- ▣ Self becomes all existences
- ▣ This is the basis of our oneness

COMPREHENDING SUPERMIND

Apprehending Supermind

- ▣ Unequal instead of equable concentration
- ▣ Knowledge centralizes itself and stand back from its works to observe them.
- ▣ All existences are soul-forms of the One
- ▣ Self contains all existences
- ▣ This is the basis of oneness in difference

Poise of Universal Divine

Spiritual Individual

- ▣ Self takes on a million personalities and develops and experiences them but never forgets he is the Divine.
- ▣ Self inhabits all existences as Individual Divine
- ▣ This is the basis of our individuality

Poise of Individual Divine

Three aspects of One Existence

- ▣ Essentiality – One Self becomes all
- ▣ Commonalty – One Self contains all
- ▣ Individuality – One Self inhabits all , but expresses uniquely in each

Triune Realization

- ▣ The divine soul is simultaneously conscious of all three
- ▣ Transcendent, universal and individual are various forms of expression of an essential unity manifesting multiplicity but remaining always essentially One
- ▣ This comprehensive self-knowledge governs all relations of the divine soul with God, the supreme Self and other selves

Divine Soul's relations of enjoyment

- ▣ It feels Delight in all its own experience of itself
- ▣ It feels Delight in experiencing relation with all others
- ▣ It feels Delight of experiencing other selves as if they were itself
